

EXPLORE

Lake James and its Watershed

Multi-generational Environmental Science Field Experience

FREE ENVIRONMENTAL EDUCATION PROGRAM
For 10th-12th grade high schoolers and college freshmen
(ages 15-19)

October 6th-8th

Camping

Spend the weekend camping at the Lake James State Park- Long Arm with college mentors and environmental professionals. Learn about environmental careers while spending time in the great outdoors!

Field work/Exploration of the natural world

Focus on Fire Ecology in the Mountains/FireWise and Exploring Streambank and Shoreline Erosion and Stabilization. Explore the Lake James shoreline on a pontoon boat! Go bird watching! Prepare and present your data to the public at the end of the weekend.

Community Service

Participate in the Catawba Riversweep trash cleanup and perform livestaking on the shoreline for community service credit.

*Option to participate in just the day
activities available.
Please inquire.*
